Professional Summary

Network Engineer with proven expertise in enterprise LAN/WAN environments, OSPF routing, SD-WAN (Citrix, Zscaler Zero Trust SD-WAN), and multi-vendor switch configurations. Hands-on experience in Fortinet 60F firewall, ZIA, ZPA, and Zero Trust implementations. Successfully delivered 15+ network infrastructure projects in the last year, including large-scale switch replacements, network revamps, and data center migrations, with 7–8 projects currently in progress. Currently pursuing CCNP certification to strengthen advanced routing, switching, and security skills. Recognized for driving uptime, scalability, and secure connectivity in business-critical environments.

Professional Experience

Network Project Engineer – Mahindra & Mahindra

09/2024 – Present

• Lead end-to-end enterprise network infrastructure projects, from design to deployment and post-implementation support.
• Implemented Zscaler Zero Trust SD-WAN (ZTB) and currently driving a Proof of Concept (PoC) for large-scale adoption.
• Designed and deployed secure network architectures tailored to organizational and plant-level requirements.
• Collaborated with IT, security, and operations teams to ensure alignment of network solutions with business objectives.
• Delivered 7–8 active projects while successfully completing 15+ projects in 1 year, ensuring on-time delivery and documentation compliance.

Network Engineer L1 – Mahindra & Mahindra

04/2023 – 09/2024

• Provided L1 technical support for network incidents and service requests, ensuring SLA compliance.
• Assisted in the configuration, deployment, and maintenance of routers and switches across multiple sites.
• Supported projects including network expansions, system migrations, and equipment rollouts.
• Monitored performance with SolarWinds and Wireshark, conducting initial troubleshooting and escalation where needed.

• Worked with senior engineers on OSPF routing, VLAN implementation, and access controls.
• Documented changes and maintained accurate configuration logs.

Key Skills

• Routing & Switching: OSPF, VLANs, NAT, ACLs
• SD-WAN: Zscaler Zero Trust SD-WAN (ZTB), Citrix SD-WAN
• Security & Firewalls: ZIA, ZPA, Fortinet 60F Firewall
• Tools & Monitoring: SolarWinds, Wireshark
• Networking Tasks: Network Design, Troubleshooting, Deployment, Documentation
• Vendors & OEMs: Cisco, HPE, Juniper (multi-vendor switch configuration)

Certifications

• CCNA (Udemy)
• Zscaler for Users – Essentials (Zscaler)
• CCNP (in progress)

Projects

• Zscaler Zero Trust SD-WAN Implementation & PoC (2025)
• Data Center Network Switch Replacement (2025)
• PAN India Plant Core Switch Replacement (2025)
• Network Architecture Revamp for Enhanced Experience (2025)
• Enterprise Network Setup at New Plant (2024)
• 15+ Completed Network Infrastructure Projects (2024–2025)
• 7–8 Ongoing Network Projects across Plants & Data Centers (2025)

Education

• B.Sc. IT, Usha Pravin Gandhi College – 2022
• HSC, Prahladrai Dalmia Lions College – 2018
• SSC, Thakur Shyam Narayan High School – 2016
